

# Roaring Fork Transportation Authority Technology Program

## REQUEST FOR EXPRESSION OF INTEREST

THE ROARING FORK TRANSPORTATION AUTHORITY (RFTA) is the transit operator for the Roaring Fork Valley in north central Colorado. RFTA operates regional and local transit services with a fleet of approximately 90 buses in a 40 plus mile corridor from Glenwood Springs to Aspen.

RFTA is planning to deploy several ITS technologies as part of the velociRFTA Bus Rapid Transit project. RFTA's technology program will include fixed route scheduling software, an AVL/CAD transit management system, real time bus arrival signs, web-based customer information, Wi-Fi on buses and electronic fare payment systems including electronic fareboxes and ticket vending machines.

RFTA is soliciting expressions of interest from transit ITS vendors interested in providing products and services to RFTA. RFTA will offer an opportunity for interested vendors to provide information on products and services and possibly demonstrate products.

The information provided shall include information on the company such as location and years in business, a brief description of the company's products and services, a listing of transit agencies utilizing the company's products and/or services, including representative contact information.

Neither the expression of interest nor the provision of information is a prerequisite to responding to requests for proposals RFTA expects to issue during 2010 and 2011.

### **Interested vendors may obtain further information from:**

Phillip Schultz, Director of Information Technology,  
0051 Service Center Drive, Aspen, Colorado 81611, [pschultz@rfta.com](mailto:pschultz@rfta.com)

### **Expressions of interest must be delivered by mail to the address below by COB March 19, 2010**
