Type of Disability:

I have examined the applicant (fully identified in the Applicant's Section of this application). It is my opinion that he/she is a "disabled person" within the meaning of the terms set forth in this document. The impairment is the following:

Check all that apply:

____Blindness – There is central visual acuity of 20/200 or less in the better eye with the use of correcting lenses. An eye which, accompanied by limitation in the field of vision such that the widest diameter of the visual field subtends an angle of greater than 20 degrees, shall be considered as having central visual acuity of 20/200 or less.

____Hearing Impairment – With hearing aids, hearing is NOT restored to one of the following levels:

____The person is mentally incapacitated such that he/she is dependent upon others for personal needs (e.g., toileting, eating, dressing, or bathing) AND is unable to follow directions such that the use of standardized measures of intellectual functioning is precluded.

____Based on a valid verbal, performance, or full-scale IQ test, the person has an IQ of 59 or less.

____Based on a valid verbal, performance, or full-scale IQ test, the person has an IQ of 60 to 70 AND is unable to perform routine repetitive tasks OR has a physical or other mental impairment imposing additional and significant limitation of mobility or gait.

____Serious Mental Illness – The applicant currently meets the criteria for a DSM-IV diagnosis other than (i) alcohol or drug disorders, (ii) developmental disabilities, (iii) dementia or mental disorders due to general medical conditions, except those with predominant psychiatric features, or (iv) social conditions (V-codes): AND experiences substantial impairments in functioning due to the severity of his/her clinical condition. The applicant experiences substantial dysfunction in a number of areas of role performance or is dependent on substantial treatment, rehabilitation, and support services in order to control or maintain function capacity. Further, the person has experienced substantial impairments in functioning due to mental illness for an extended duration.
